TRANSFORMATIVE SKIN REJUVENATION

THE ULTIMATE SOLUTION FOR SKIN REJUVENATION

Discover the ultimate solution for skin rejuvenation and offer your patients a transformative experience. The ReGenRF8 Pro empowers you to stand at the forefront of the aesthetic industry, delivering remarkable results and helping your clients achieve their skin goals. Experience the Future of Aesthetics with ReGenRF8 Pro, the groundbreaking Radio Frequency (RF) microneedling device designed to transform your practice and redefine skin rejuvenation. Elevate your aesthetic offerings and achieve unparalleled results with the power of the RF microneedling device

REVOLUTIONARY TECHNOLOGY FOR UNMATCHED RESULTS

Step into the future of non-surgical skin treatments with the ReGenRF8 Pro, a state-of-the-art RF Microneedling system that offers a comprehensive solution for a wide range of skin concerns. This cutting-edge device combines the principles of collagen induction therapy (CIT) with advanced radio frequency technology to deliver exceptional results for your patients.

UNVEIL RADIANT SKIN WITH COLLAGEN INDUCTION THERAPY

At the core of the ReGenRF8 Pro lies Collagen Induction Therapy, a process that leverages the skin's natural healing ability to rejuvenate and renew. Unlike conventional treatments, our system penetrates the skin's layers, effectively delivering radio frequency energy deep into the sub-dermis. This induces collagen remodeling, effectively tightening and revitalizing the skin. Experience the benefits of a non-surgical facelift with each session.

POWERFUL REGENRF8 PRO TECHNOLOGY FOR POWERFUL RESULTS

Our cutting-edge ReGenRF8 Pro technology utilizes bi-polar RF energy in tandem with precision-engineered microneedles, to achieve deep heat penetration within the skin's layers. This promotes collagen and elastin regeneration, culminating in smoother, firmer, and more even skin. The ReGenRF8 Pro empowers practitioners with precise control over treatment parameters. The Adjustable Energy Levels and Enhanced Delay function provide the ability to fine-tune treatments, minimizing post-inflammatory hyperpigmentation while maximizing results. The device's flexibility accommodates a variety of skin types and concerns.

ADDRESS A SPECTRUM OF SKIN CONCERNS

The ReGenRF8 Pro is your versatile partner in addressing an array of skin imperfections. Enhance the appearance of:

- Enlarged pores
- Fine lines and wrinkles
- Facial acne scars
- Stretch marks
- Hyperpigmentation
- Uneven skin tone
- Crepey skin
- Skin texture irregularities
- and more

A SOLUTION BACKED BY SCIENCE

The ReGenRF8 Pro's efficacy is supported by its FDA clearance and clinically proven results. Patients commonly report noticeable improvements in skin texture and appearance even after a single session. Depending on individual skin conditions, optimal outcomes can often be achieved with a series of three to six treatments.

Designed with both patients and practitioners in mind, the ReGenRF8 Pro boasts:

- Sterilized tips
- User-friendly touchscreen interface
- Mobility with detachable handpiece
- Safety features to mitigate risks
- Convenient twist knob for penetration depth adjustment

8MM PENETRATION + DUAL HANDPIECES

The new Radio frequency platform is the first and only FDA cleared technology that takes fractional radio frequency to depths beyond anything else in the market. Penetrating subdermal tissue up to 8mm (7mm + 1mm thermal profile), this new system is designed with dual handpieces, four fractional tips with different pin configurations (12 pin, 24 pin and 40 pin), intelligent programmable technology to deliver clinically proven RF energy to multiple treatment depths, and a large LCD treatment screen. This state of the art workstation provides Physicians with a modular fractional solution for complete facial and full body dermal resurfacing and subdermal adipose remodeling.

40 thin gold coated micropins

MAXIMUM RESULTS MINIMAL DOWNTIME

Radio frequency's triple action of fat coagulation, connective tissue contraction, and sub-necrotic bulk heating provides practices with "maximum results - minimal downtime" procedures.

Physicians now have the versatility to treat both small and large areas of concern with one platform, providing patients with customized solutions to remodel collagen and subdermal adipose tissue.

PEPFACTOR™ + MedSpaEquip

PEPFACTOR TREATMENTS FOR SKIN

PepFactor Skin is one of the most advanced cosmetic skin systems available today. Formulated by doctors and scientists, PepFactor contains the world's first uniquely formulated treatment for vibrant, glowing, and more youthful-looking skin. PepFactor visibly improves overall skin appearance for a more youthful and radiant look.

PepFactor Skin treatments come in a set of 6 treatments per box. Each therapy can earn you up to \$500 and provides the best skincare for your clients.

PepFactor Skin kits are the perfect addition to offer as a treatment with your DermAnalysis Pro device.

PEPFACTOR TREATMENTS FOR SCALP

Hair loss is a common problem that can leave many feeling self-conscious. PepFactor promotes thicker, vibrant, and luscious-looking hair. Enriched with Copper Peptide, antioxidants, and our proprietary PepFactor ingredients, PepFactor Scalp helps encourage more voluminous, younger-feeling hair, with most treatments showing visible results after just four weeks.

PepFactor Scalp treatments come in a set of 6 treatments per box. Each therapy can earn you up to \$500 and provides the best skincare for your clients.
